Genuine Spicer[®]
Driveshaft Components
—there is no substitute.

When it comes to keeping your vehicle up and running, why take a risk with unproven knock-off replacement parts? Genuine Spicer[®] service parts are the same as the original equipment parts, adhering to rigid manufacturing specifications for performance and reliability. Unlike non-genuine parts, our wide range of Spicer[®] driveshafts provides less drivetrain vibration, improved balance and stiffness, and more lateral protection against environmental contaminants. It all adds up to longer-life parts for maximum time on the road and minimum operating costs. Proving the best replacement part is always the original.

Warning: Working on a vehicle can be dangerous. Use proper safety techniques, such as using proper tools, and wear your seat belt. Do not work on a vehicle with or without a guard when the engine is running.
